

WHY US?

- We have a loading dock, a dray cart and a service elevator with a capacity of 2.500 kg to help you get your technical equipment and the materials you require to set up your stands or launch your products during all your major and important meeting events inside the hall more easily.
- We have booths for simultaneous translations in 16 different languages during your international congresses and meetings.
- The kitchen and the bar located next to the main hall provides faster catering during your Gala nights. You can also pass to the adult restaurant section quite easily by taking the elevator.
- You can use the space between the main hall and the loading dock as a storage area.
- We have a backstage lobby with lights, mirrors, air conditioners and hair washing units where many models can use during national and international fashion shows, beauty contests, hair design group events, cosmetic product launches
- Misafirlerimiz için salon yakınında abdest alma bölümü ve mescit imkanı sunulmaktadır.
- A washroom for ablution and a prayer room near the hall is also at the service of our guests.
- With a ready-to-use PC desk, a multi-socket plug and internet service at the Business Center, press members can issue their press releases instantly, easily and comfortably.
- You can use one of our many rooms of various dimensions as a private office.
- A foyer area of 1.175 m² is available during your congresses and product launches to use as exhibition sites.
- Our sound – light systems will provide you high-tech assistance.
- Our 1 x 2-meter-large and 40 to 60 cm tall 24 podiums are among what we offer to facilitate your events.
- Our 40 m²-large portable dance floor will help add your event also a little bit of fun
- The control room and the sound and light system in the auditorium is located upstairs overlooking the whole hall.
- There is a cloakroom in the foyer area.
- The electronic notice boards in front of the halls indicate the title of your event, hall names, company logos, and schedules and timetables of your events.
- Geniş alana sahip kongre merkezi girişinde kayıt deski alanımız resepsiyon yakınında hizmet vermekte olup misafirlerimizin kayıt işlemlerini daha hızlı yapmalarını sağlamaktadır.
- Both cable and wireless internet access service located in front of each conference hall is also available.
- Our technical staff is at your service for your branding activities at the hotel entrance area, foyer area and inside the halls.
- We offer the following technical features:

900KW generator feeding the Congress Center and its surroundings, 3 pieces of 6KW Ups, 380 Volt plug, local VRV system next to central air conditioners for more convenient meeting events during mid-seasons, 106 pieces of chrome hook system that can carry sound and light systems of any type for meeting events of all magnitude, 3 pieces of automatically controlled curtain and barcovision system, sliding and sound proof separator system divisible into 3 sections, catwalk on main hall ceiling to use during technical equipment installations
